

How to download Parallels Client

• Parallels Remote Application Server

It is possible to use a separate page to download Parallels Client only

1. Follow the link: <u>Download All Parallels RAS components</u>

2. Pick the right version from a drop-down menu:

3. Download an appropriate Client.

4. It is also possible to use https://www.parallels.com	the download page linl /products/ras/download	k with a specific pre-sele 1/client/#ras-v18#ClientI	ected version. Example: nstallationFile
