

## **How to collect Client Saved Job in Linux**

• Parallels Remote Application Server

Client Saved Job files in Linux are located in /var/spool/cups folder.

To reach them one should do the following:

sudo cp -r /var/spool/cups/ ~/Desktop

## 2. Set '777' permissions to the copied 'cups' folder: sudo chmod -R 777 ~/Desktop/cups

3. Open the copied folder and verify that there are some files named like "d00006-001" in it:

4. Rename them adding .pdf extension:

5. Open them using installed PDF viewer application or copy somewhere for further investigations.
